

SEPC 2023

Sustainable Event Professional Certificate (SEPC 2023) (International Course)

ABOUT THE PROGRAM

The SEPC program is for those events professionals interested in accelerating sustainability and social impact in their organizations and global business events. The program provides guidance that will be valuable for reaffirming our industry's commitment to a recovery that is resilient, sustainable and equitable.

The Sustainable Event Professional Certificate is comprised of 16 modules. The course culminates in a straightforward "Final Sustainable Capstone Project"; a certificate of completion for 12 CEs and digital badge is awarded as a result.
